Summary

I am an aspiring web designer and indie game developer who loves to create cool stuff! I'm a quick learner and like to help with as many aspects of the development process as possible, when possible. During my down time I like going out and trying new places to eat (searching for those gems), barbecuing, skateboarding, making music, hiking, sight seeing and most of all traveling with friends.

Skills

Front-End Web Development

HTML5	    
CSS3 & SASS	    
Bootstrap	    
JQuery	    
Angular	    

Programming Languages

Java	    
Javascript	    
C#	    
Python	    
Lua	    

Utilities: Design, Audio, Misc.

Illustrator	    
Photoshop	    
Ableton	    
Git	    
Scrum	    

Education

University of California, Santa Cruz

2010-2014

BS, Computer Science: Game Design

GPA 3.0

Relevant Coursework: Data Structures, Game Design, Game Development, Mobile Development, Digital Art and New Media, Hypermedia and the Web, Design Research

Aug 2009 - Aug 2013

The Garret of Campbell - Jake's of Saratoga

Campbell - Saratoga, California

- Made gourmet pizzas and handled ovens. Prepared vegetables, marinara sauce, and other toppings for pizzas. Took orders at the register, served brews off tap, helped open and close restaurant.

Game Development

Solar Crisis

Solar Crisis is a fast paced two stick shooter where the player chooses to defend themselves or repair the solar panel they reside upon. As the solar panel degrades the level changes dynamically making it harder for the player to survive. This game can be played with up to four players, both versus and cooperatively.

Now We're Cooking

Now We're Cooking is a mobile game for Android and iOS devices. The game is a cooking/strategy game that takes place in a reality cooking tv show. Somehow, the host has turned all the food evil. Players must successfully cook food and serve it before it reaches the player's chef who are desperately trying to fight them off.
